Yard Space and Splash Pad

The yard space and equipment available on the yards must be used in a respectful manner at all times. Children must be SUPERVISED at all times by the adults attending the rental – it is not our staff persons' responsibility to supervise the children attending an event.

The staff person is here to answer your questions and to unlock the facility and provide assistance as needed. We expect that the setup of the space and any furniture or equipment will be the responsibility of the person renting the facility.

The daycare rooms are off limits to people attending the rental and the rooms available are as follows:

: main entrance or great room (1200 sq. ft. as you enter the facility)

: bathrooms in the main entrance hall to the east (left) of the great room

: kitchen facilities in the staff room – a staff person will assist with any requirements in this room. (We have available a fridge for storing food or drinks to be kept cool, dishwasher to assist with cleanup if required and a microwave).

All food and drink items should be consumed in the great room not outside on the yard due to allergy concerns and controlling the environment.

Any equipment out and available on the yard is okay to be used but storage sheds are off limits. If children are occupying more than one of the defined yard spaces at a time there needs to be a responsible adult supervising on that yard. Adults need to make sure that they are actively supervising especially around the climbing structures.

Some of the basic rules we use with the children using the yard are:

: children should never run while on any of the climbing structures

: when children are using structures they should use them appropriately (sitting and going down slides feet first, climbing up only parts of the climber that are designed for climbing, no overcrowding of the space in the structure, etc.).

Adults should try to ensure children are not riding trikes through the splash pad area when children are using the water feature as a splash pad.

Our yard spaces and equipment are inspected daily while the daycare is in operation and any broken equipment would be identified by the staff person as something that should be avoided until repaired. If there is a time where this situation occurs, supervising adults would be expected to make sure this is followed through on.

The person responsible for the rental must ensure that all aspects of the rental time are adhered to. If you rent the facility from 12:00 until 3:00 we will make sure that a staff person is available from 12:00 until 3:00. The rental does need to be finished and cleaned up for that time so the staff time is covered with the payment.

Garbage cans will be provided and the expectation is that any garbage produced the day of the rental will be placed in the cans. We do have recycling containers available as well for pop cans.

Renters should not use glass containers of any sort on the yard spaces as this could cause a safety concern if one was broken outside on the turf.
